

## This weekend singles will mingle at Mambo Jambo!

Looking to connect while you are in Aruba? You can do it at any internet café and live with [www.singles-aruba.com](http://www.singles-aruba.com)! Aruba's nicest singles site, for "friendship and more..." not only offers a pleasant way to get to know singles of all ages online, they give you the chance to meet them in person!

Last month they hosted their first singles party at Mambo Jambo, and it proved such a success they are doing it again this Saturday night, May 20, starting at 10 P.M. Anyone in Aruba will tell you the Mambo Jambo's is the place to practice your Salsa, or just watch some of the great dancers. This weekend you will also get to see a fun show from the spare time dancers and meet some great people that you can keep up with online after departing the island.

Entrance is only \$10, which includes a chance to win some terrific door prizes. Who will take home a trip for two on the Jolly Pirates, or an Intermezzo Day Spa treatment for two? In addition, dinners for two from Madame Janette's, Bingo, Moomba Beach Restaurant & Bar, Chez Mathilde, Rumba and Le Dome restaurants will be raffled off, which more than makes up for the entrance fee for some lucky winner! If you are not part of a couple and are fortunate to win a prize, you can always find some charming person that you meet on Saturday night to accompany you!

Tickets are available at the door or at the Cyberzone Café in the Renaissance Market Place. If you are single, then don't ignore the old adage "Be there or be square!"
